**Introducing Energy Power Systems Australia's (EPSA) CAT<sup>®</sup> Battery Energy Storage Systems (BESS) – designed to meet the requirements for off and on-grid applications. Based on lithium-ion batteries, these portable products are ready to supply power in the most demanding situations.**

The EPSA Cat<sup>®</sup> BESS units are designed to supplement traditional mobile power solutions, significantly reducing noise, facilitating the deployment of renewable energy sources, and enhancing generator efficiency. Engineered for rapid plug-and-play installation and seamless integration, these BESS units can be effortlessly combined with any mix of diesel, natural gas, or renewable energy sources, including solar and wind. Trust EPSA for innovative, efficient, and sustainable energy solutions.
