

CAN YOU AFFORD A POWER OUTAGE?

RESTORE POWER IN SECONDS WITH A CAT® STANDBY GENERATOR FROM 7.5 kVA

Protect your patrons, your machines and your business

How does it work?

1. Your venue experiences a power outage
2. Your standby generator turns on automatically
3. Power is restored in seconds

- » Provides permanent back up protection from power outages
- » Transfer switches available to automatically start standby generator
- » Delivers back up electricity for pokies, eftpos facilities, kitchen refrigeration, computers, security, phone, lights, air conditioners, and appliances.

- » Add value to your business
- » Premium quality - reliable, durable, efficient
- » Suitable for small to large venues
- » Uninterruptible Power Supply (UPS) option available - when you cannot afford to be without power, even for a split second.

COMMERCIAL MANAGED POWER

What is managed power?

The Cat® Compact range provides emergency power to your venue so your pokie machines, security, kitchens, air conditioning and lighting stays on until mains power is restored.

The Cat® Compact diesel generator range use industry leading mechanical and electrical design with reliability and durability at the forefront, so your business is safe and secure under all conditions. Powered by market-leading Cat® diesel engines the Cat® Compact range delivers on fuel efficiency, product life and optimised run time from fuel tanks. The modular design provides you with flexibility for installation according to specific local requirements and a more compact installation footprint, minimising space required and initial installation costs.

Cat® EMCP control panel is fitted to all Cat® compact models with auto start capability standard. (Optional automatic transfer switch required for auto start)
