

CAN YOU AFFORD A POWER OUTAGE?

PROTECT YOUR BOTTOM LINE
RESTORE POWER IN SECONDS
WITH A CAT® STANDBY GENERATOR
FROM 7.5 kVA

Reduce
insurance
premiums.

Protect
your farm, your
produce and
your business

How does it work?

1. Your farm experiences a power outage
2. Your standby generator turns on automatically
3. Power is restored in seconds to keep you operational

- » Provides permanent back up protection from power outages
- » Transfer switches available to automatically start standby generator
- » Add value to your farm
- » Premium quality - reliable, durable, efficient
- » Suitable for small to large applications

- » Delivers back up electricity for machines, feed mills, traveling irrigators, dairy farming equipment, grain handling, refrigeration, computers, phone, lights, pumps, ventilation, air conditioners and appliances.
- » Uninterruptible Power Supply (UPS) option available - when you cannot afford to be without power, even for a split second.

AGRICULTURE FARM POWER

Built to last, not to throw out...

The Cat® compact range of DE Series standby generators provides emergency power when you need it. You receive a total support solution – full service support from your local Cat® trained qualified technicians, available 24/7.

Reliable Cat generators are designed for long life and trouble-free operation.

Cat generators are durable and designed for heavy duty applications. The Cat diesel generator range uses industry-leading mechanical and electrical design to run under any conditions. Powered by market-leading Cat® diesel engines the Cat® DE Series standby range delivers on fuel efficiency, product life and optimised run time from fuel tanks. The modular design provides you with flexibility for installation and a more compact footprint, minimising space required and initial installation costs.

Stock is available now, so contact your local representative for full details.

Cat® EMCP control panel is fitted to all Cat® compact models with auto start capability standard. (Optional automatic transfer switch required for auto start)

Speak to us about standby and prime power, pivot pumps, solar pump arrays, irrigation and more.
