- » Delivers back up electricity for lights, freezers, TV, air conditioners & computers
- » Premium quality - reliable, durable and efficient
- » Add value to your property
- » Suitable for residential or small commercial applications
- » Powered by diesel

RESIDENTIAL MANAGED POWER

What is managed power?

The Cat® Compact range provides emergency power to your household so your appliances and lighting stays on until mains power is restored.

The Cat® Compact diesel generator range use industry leading mechanical and electrical design with reliability and durability at the forefront, so you feel safe and secure under all conditions. Powered by market-leading Cat® diesel engines the Cat® Compact range delivers on fuel efficiency, product life and optimised run time from fuel tanks. The modular design provides you with flexibility for installation according to specific local requirements and a more compact installation footprint, minimising space required and initial installation costs.

Cat® EMCP control panel is fitted to all Cat® compact models with auto start capability standard. (Optional automatic transfer switch required for auto start)
